Bangkok, Thailand

SUMMARY

Dedicated Full-Stack Developer specialized in building scalable web applications using Angular, Spring Boot, and .NET. Experienced in designing secure transaction architectures and enhancing overall system performance.

SKILLS

- **Programming Languages:** C#, TypeScript, JavaScript, Java
- **Web Technologies:** Angular, React, HTML, CSS, Bootstrap
- **Database Systems:** PostgreSQL, SQL Server, MySQL
- **Other Tools & Technologies:** Docker, Nginx, Git, VSCode, Postman

WORK EXPERIENCE

Full-Stack Developer, Netbay PCL

July 2025 - Present

- Consistently delivered high-quality code and completed assigned tasks within scheduled Agile sprints, ensuring on-time project milestones.
- Debugged and resolved critical issues in the system, leading to smoother operations and enhanced productivity for the development team.

Full-Stack Developer, LH BANK

July 2024 - July 2025

- Developed a backend system for top-up functionality based on specific requirements, ensuring secure and efficient transaction processing.
- Designed and implemented a scheduling web platform for managing and planning work shifts in advance.

Full-Stack Developer, Visionet Company Limited (Internship)

Jan 2023 - April 2023

- Developed RESTful APIs using .NET with JWT authentication and built responsive UIs using Angular and Bootstrap.

PROJECTS

Pongsonshop - Game Top-up Platform

Jan 2025 - Present

- Developed a comprehensive game top-up website featuring real-time transaction processing.
- Built the frontend using Angular and robust backend services with .NET and PostgreSQL.
- Containerized the application and managed deployment using Docker and Nginx for scalability.

Search and Booking Motorcycle Taxi System: WinWin Application

July 2023 - April 2024

- Built a responsive mobile application for users and drivers using React Native and RNUIlib.
- Integrated WebSockets for real-time functionality and created automated test cases using Postman.
- Implemented secure passwordless login using Auth0 and integrated Twilio for SMS (OTP) verification.

EDUCATION

Bachelor of Information Technology

2020 - 2024

King Mongkut's University of Technology Thonburi

ADDITIONAL INFORMATION

- **Languages:** Thai (Native), English (Intermediate)
